

Staged Day Treatment Program — Mixed Gender

Introductory TreatmentThursdays (ongoing)**VIRTUAL** (Zoom)

3:30-4:30pm

Intensive TreatmentJun 15-26, 2026**IN PERSON** (Kitchener)Mon, Wed, Fri 9:30-2:00
Tues, Thurs 9:30-12:30

This Staged Day Treatment Program is for adults (all genders) who are concerned with their substance use, and are taking steps to make changes or maintain changes to their substance use. The program involves Introductory Treatment (Stage 1) and Intensive Day Treatment (Stage 2), as well as Aftercare options (Stage 3).

Introductory Treatment (Stage 1) is a weekly group focused on skill-building and support, designed to prepare you for participation in the Intensive Day Treatment Program. Introductory Treatment group remains virtual at this time, with the option of attending in-person as needed.

Intensive Day Treatment (Stage 2) is a two-week group intended for individuals who may benefit from participating in a group counselling program and are committed to a lifestyle that supports their individual substance use goals. This two-week program is in-person and is a mixed gender program. Program details will be discussed during the intake process.

Applying to the Program: To begin the application process to the Staged Day Treatment Program, one must have their assessment tools completed and sent to Day Treatment. Day Treatment will then follow-up to complete a program intake appointment, assess needs and goals, and discuss next steps.

Please note that space in all programs is limited, so apply as soon as you are able.

For more information about the Staged Day Treatment Program or other services offered by Day Treatment, please call 519-742-8327 x 276 or email
